

Investment Objective

The investment objective of the Fund is to track the risk and return characteristics of the Solactive Global Bond 1-5 Years ESG Climate Index (the "Index"). The Fund invests primarily in freely transferable Debt and Debt Related Securities including investment grade bonds that are constituents of the Index. The Fund may also invest in investment grade bonds that are not included in the Index that are deemed by the Investment Manager to exhibit similar characteristics to securities in the Index and that have a similar risk profile. The Index excludes securities that do not meet certain Environmental, Social and Governance (ESG) criteria and companies that are in breach of UN's Global Compact Ten Principles.

Target Market: This Fund is appropriate for investors who plan to invest over the short to medium term; and are looking for a passively managed investment in the relevant market(s) ESG principles implemented according to a defined set of exclusions as well as certain defined ESG criteria.

Don't take any unnecessary risks.

RISK WARNINGS

Credit Risk – A borrower or a counterparty may fail to repay or otherwise fail to meet contractual obligations to the Fund.

Liquidity Risk – Lack of a ready market or resale restrictions may limit the Fund's ability to sell a security. Where the Fund invests in illiquid securities or does not trade in large volumes, the bid offer spreads may widen. Illiquid securities may trade at a discount and may affect the ability to meet redemptions on a timely basis.

Investment Risk – The Fund may not achieve its investment objective. An investment in the Fund involves investment risks including possible loss of the amount invested.

Issuer Risk – The issuer of a bond held within the Fund may not be able to meet its obligations to the Fund.

Currency Risk – Where a class of shares are in a currency other than the base currency of the Fund, the non-base share classes of the Fund may be affected unfavourably by fluctuations in currency rates.

Valuation Risk – A position in the Fund may be valued incorrectly, as some prices may be uncertain at a point in time.

Hedging Risk – Gains/losses on and the costs of currency hedging strategies are intended to accrue solely to the relevant Class. Currency hedging may be imperfect and generate a difference between the performance of the Index and the share class performance.

Political Risks - The performance of the Fund may be affected by changes in economic and market conditions due to political developments and changes in government policies.
