IMPORTANT BENCHMARK INFORMATION:
The Sub-Fund is actively managed, seeking to deliver excess returns over the Sub-Fund’s benchmark. The holdings may or may not be components of the benchmark and the Investment Manager has broad discretion to deviate from the benchmark securities, weightings and risk characteristics. The degree to which the Sub-Fund resembles the composition and risk characteristics of the benchmark is not a specifically targeted outcome and could vary over time, and the Sub-Fund’s performance may be meaningfully different from the Sub-Fund’s benchmark. Source of benchmark: Bloomberg. The benchmark is used for information purposes only and is calculated dividend reinvested. No benchmark is directly identical to the Sub-Fund and its performance is not a reliable indicator of future performance of the Sub-Fund.

GLOSSARY

Exit Fee: Fee charged to investors when they redeem units from a fund.
Information Ratio: Measures the funds returns above the benchmark returns relative to the risk (volatility) of the excess returns. It is a measure that identifies the consistency of the manager to outperform the benchmark.

Management Fee: Percentage of the fund’s assets that unitholders pay annually as remuneration to the investment adviser for managing the fund.

Service Fee: Percentage of fund’s assets that retail unitholders pay annually for distribution services.
Total Expense Ratio (TER): Estimated percentage (annualized) of fund assets used to pay for management fees and operating expenses, including service fees (if any) incurred by the fund. Fund expenses are reflected in the NAV. When calculating the TER, PineBridge has used the amount of expenses that it has received or estimated in its capacity as the Fund’s Manager. Please note that the expense ratio includes variable expenses that are based on a number of factors including fund size, transactions, and other expenses. No assurance can be given that the TER will be realized over any future given period.
Tracking Error: Reflects the degree of variability of fund returns in relation to the benchmark. The lower the number the closer the fund’s historic performance is to the benchmark.
