Fund Description

The Emerging Markets Equity UCITS (the "Sub-Fund") seeks to generate capital growth over the long term. It mainly invests in securities of companies that are organized in emerging market countries. The Sub-Fund's benchmark is the Morgan Stanley Capital International Emerging Markets Investable Market Index (MSCI EM IMI). The Sub-Fund focuses on companies with potential for growth at a reasonable price (GARP). This strategy utilizes a bottom-up investment process driven by fundamental research into the sustainability of a company's growth drivers. Stock selection is oriented toward strong secular stories, many of which reflect domestic demand themes and are often found in smaller-capitalization stocks.

The **MSCI Emerging Markets Index** is a free float-adjusted market capitalization index that is designed to measure equity market performance of emerging markets countries. The **MSCI Emerging Markets Investable Market Index (IMI)** is a free float adjusted market capitalization index that is designed to capture large-, mid-and small-cap representation across emerging markets countries.

MSCI Emerging Markets Investable Market Index (IMI) captures large, mid and small cap representation across emerging markets (EM) countries. The index covers approximately 99% of the free float-adjusted market capitalization in each country.

You can lose money by investing in the Sub-Fund. Any investment in the Sub-Fund should be part of an overall investment program, not a complete program. The Sub-Fund is subject to risks associated with its investments in emerging markets securities, which tend to be more volatile and less liquid than securities traded in developed countries. The Sub-Fund's investments in foreign securities involve risks related to adverse political and economic developments unique to a country or a region, currency fluctuations or controls, and the possibility of arbitrary action by foreign governments, or political, economic, or social instability. The Sub-Fund is subject to risks associated with investments in debt securities, derivatives, illiquid securities, asset-backed securities, CMOs and small or mid-cap companies. The Sub-Fund is also subject to inflation risk, market risk, non-diversification risk and leverage risk. Investing in the Sub-Fund also entails risks associated with China and the use of Stock Connect. The Sub-Fund's investments in Chinese A-shares through Stock Connect will be subject to investment quotas and trading restrictions which may pose risks to the Sub-Fund.
