

## AUGUST 2024 / FACTSHEET

The original Barings Eastern Europe Fund (the “Base Fund”) was suspended on 1 March 2022 due to the effects of the ongoing conflict in Ukraine. At the point of suspension, Russian securities held in the Base Fund were written down to zero. To allow for a resumption of daily dealing, the liquid assets (“Liquid Assets”) of the Base Fund were transferred to the new Barings Eastern Europe Fund (the “New Fund”), leaving only the affected Russian securities (the “Impacted Assets”) in the suspended Base Fund, which has been renamed as the Barings Eastern Europe (SP) Fund.

The New Fund reopened for dealing on 24<sup>th</sup> July 2023. The New Fund’s net asset value does not include Russian assets, which continue to be valued at zero and are held in the Base Fund. The performance track record of the Base Fund has been continued, although performance from 1<sup>st</sup> March 2022 to 21<sup>st</sup> July 2023 is based on an indicative NAV due to fund suspension.

### OBJECTIVE

The Barings Eastern Europe Fund is an actively managed equity strategy. The investment objective of the fund is to achieve long-term capital growth primarily through investment in a diversified portfolio of Emerging European equity securities.

### STRATEGY

Identify investment opportunities through a differentiated and innovative investment process using fundamental, bottom-up analysis.

FUND PERFORMANCE (%)	Class A USD Inc (Gross of Fees)	Class A USD Inc (Net of Fees)	Benchmark <sup>1</sup>
Year to Date	17.16	15.64	12.86
1 Year	27.70	25.22	20.13
3 Years	-21.88	-23.40	-23.43

### Key Risks:

- Regional Funds have a narrower focus than those which invest broadly across markets and are therefore considered to be more risky.
- Emerging markets or less developed countries may face more political, economic or structural challenges than developed countries. Coupled with less developed regulation, this means your money is at greater risk
- Russia and the region pose special risks such as, economic and political unrest, lack of a transparent and reliable legal system, lower standards of corporate governance and an under developed process for enforcing legal ownership of investments
- Derivative instruments can make a profit or a loss and there is no guarantee that a financial derivative contract will achieve its intended outcome. The use of derivatives can increase the amount by which the Fund's value rises and falls and could expose the Fund to losses that are significantly greater than the cost of the derivative as a relatively small movement may have a larger impact on derivatives than the underlying assets
- Debt securities are subject to risks that the issuer will not meet its payment obligations (ie, default). Low rated (high yield) or equivalent unrated debt securities of the type in which the fund will invest generally offer a higher return than higher rated debt securities, but also are subject to greater risks that the issuer will default.
- Changes in exchange rates between the currency of the Fund and the currencies in which the assets of the Fund are valued can have the effect of increasing or decreasing the value of the Fund and any income generated

**Benchmark history:** BEMI (Baring Emerging Markets Index) Greater Eastern Europe Total Return Index with Gross Dividends reinvested until 31st March 2001. Then BEMI Greater Eastern Europe Index (Russia at 50% weight) Total Return Index with Gross Dividends reinvested until 31st December 2001. Then FTSE Eastern Europe Total Return Index (Russia weighted at 50% of its market capitalisation) with Gross Dividends reinvested until 30th April 2008. Then MSCI 10/40 Emerging Europe (Total Net Return) Index.
