KEY RISKS

Credit Risk: Risks associated with issuers of debt securities, even those with a very high rating, may not be able to make payments to investors, or the fear associated with this risk may result in a decrease in the value of their debt securities.

Derivative Risk: Risk associated with derivatives which may be subject to unexpected movements or expose the Sub-fund to losses significantly greater than the cost of the derivative.

Interest Rate Risk: Risks that the value of fixed-income securities will vary inversely to interest rate fluctuations.

For full disclosures on all key risks, please refer to the Key Investor Information Document (KID).

Disclosure

This fund does not promote environmental and/or social characteristics within the meaning of Article 8(1) or 9(1) of the SFDR Regulation. The ESG rating of the fund is reported for informative purposes only. Legend: 4 green leaves = AAA; 3 green leaves = AA; 2 green leaves = A; 1 green leaf = BBB; 1 grey leaf = BB, B, CCC or rating not available.

The value of investment interests can fall as well as rise. Any capital invested may be at risk and you may not get back some or all of your original capital. The value of investments and any income is not guaranteed and can go down as well as up and may be affected by exchange rate fluctuations. This means that an investor may not get back the amount invested.

The term "Cash Offset" represents a technical entry used to balance the exposure generated by the derivative instruments in the portfolio and bring the total portfolio back to 100%.
