**You are about to purchase a Product that is not simple and may be difficult to understand.**

## What is the product?

**Type:** This Product is a share in a Sub-fund of the Umbrella qualifying as an alternative investment fund under the law of 12 July 2013 on alternative investment fund managers and the AIFMD regulation.

**Term:** This Product has no maturity date. The Sub-fund has been established for an indefinite period of time. The Board of Directors of the Investment Company is entitled to liquidate, merge or reposition the Product at any time unilaterally in case the Product can no longer be managed in the interest of the investors. The amount the investor will receive upon early termination may be less than the amount invested.

**Objectives:** This Bond Sub-fund is actively managed aiming to achieve capital growth by direct investments in global debt instruments of different currency, such as bonds, notes or fixed-interest and floating-rate securities of public, private and semi-private companies from insurance and reinsurance sectors that are exchange-traded. The Sub-fund promotes environmental, social and governance (ESG) characteristics (within the meaning of Article 8 of Regulation (EU) 2019/2088) through a combination of different portfolio management techniques. Details are available in the prospectus and the ESG website disclosure of the Sub-fund. The Sub-fund might hold up to 20% of its net assets in debt instruments below investment grade BBB- (S&P) or Baa3 (Moody's). In order to reach its objective, the Sub-fund can use derivative instruments to protect against movements in currencies and security prices and for efficient portfolio management. This Share Class does not make regular distributions.

**Intended Retail Investor:** This Product is intended for professional and institutional investors, as well as sophisticated retail investors with sufficient knowledge and experience in collective investment schemes and similar products, an ability to bear a minor investment loss, and a long-term investment horizon.

## What are the risks and what could I get in return?

### (A) Summary Risk Indicator

**The risk indicator assumes you keep the Product for 5 years. The actual risk can vary significantly if you redeem at an early stage and you may get back less.**

The Summary Risk Indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets. We have classified this Product as 3 out of 7, which is a medium-low risk class and poor market conditions are unlikely to impact our capacity to pay you. **Be aware of currency risk** if your reference currency differs from the currency of the Product. You may receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. Investors shall note that the Product may be exposed to further risks such as operational, counterparty, political, sustainability and legal risks that are not included in the Summary Risk Indicator. This Product does not include any protection from future market performance so you could lose some or all of your investment.

## (B) Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. **What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.**

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if MultiConcept Fund Management S.A. is unable to pay out?

The investor of this Product will not face financial loss due to the default of MultiConcept Fund Management S.A., as the Sub-fund is considered to be a separate entity with segregated assets.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested

	<b>If you exit after 1 year</b>	<b>If you exit after 5 years</b> (Recommended holding period)
<b>Total costs</b>	EUR 194	EUR 1,006
<b>Annual cost impact (*)</b>	1.9%	1.9%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.8% before costs and 2.9% after costs.

## Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	0.0% of the value of your investment when entering.	EUR 0
Exit costs	0.0% of the value of your investment before it is paid out to you.	EUR 0
