FUND OVERVIEW

The Fund aims to achieve capital appreciation by investing in a global investment universe (mainly in developed markets) of equity and equity-related securities with a flexible approach resulting in an exposure to equity markets ranging between 0% and 100%. The stock selection is based on a bottom-up approach within a global investable universe made up of high-quality, mainly blue-chip names. The portfolio construction will be based on a fundamental approach and no geographic restrictions. Derivatives, ETFs and other UCIs may be used for tactical asset allocation and hedging purposes. The Fund's base currency is EUR.

KEY RISKS

Derivative Risk: Risk associated with derivatives which may be subject to unexpected movements or expose the Sub-fund to losses significantly greater than the cost of the derivative.

ESG Strategy Risk: Risks associated with investment policies that take an ESG approach. The use of ESG criteria can affect the performance of a Sub-fund, which may, therefore, differ from that of other Sub-funds with similar investment policies but which do not take ESG criteria into account.

Systematic Market Risk: Risk of circumstances such as an economic shock or political instability on the market in which the Fund invests causing a loss of value for all investments in the Fund.

Disclosure

This fund promotes environmental and/or social characteristics within the meaning of Article 8(1) of the SFDR Regulation, and is required to maintain an overall ESG rating of at least BBB at portfolio level. The ESG rating is based on MSCI ESG Research data and methodology. Legend: 4 green leaves = AAA; 3 green leaves = AA; 2 green leaves = A; 1 green leaf = BBB; 1 grey leaf = BB, B, CCC or rating not available.

The value of investment interests can fall as well as rise. Any capital invested may be at risk and you may not get back some or all of your original capital. The value of investments and any income is not guaranteed and can go down as well as up and may be affected by exchange rate fluctuations. This means that an investor may not get back the amount invested.

The term "Cash Offset" represents a technical entry used to balance the exposure generated by the derivative instruments in the portfolio and bring the total portfolio back to 100%.
