This document was prepared on 9 July 2024.

What is the product?

Type: This Product is an investment company qualifying as UCITS Sub-fund in accordance with the UCITS law.

Term: This Product has no maturity date. The Sub-fund has been established for an indefinite period of time. The Board of Directors of the Investment Company is entitled to liquidate, merge or reposition the Product at any time unilaterally in case the Product can no longer be managed in the interest of the investors. The amount the investor will receive upon early termination may be less than the amount invested.

Objectives: This Sub-fund is actively managed with reference to the MSCI World Infrastructure Net Total Return Index (the "Benchmark") with the exclusive objective of performance comparison or investor communication purposes. The Sub-fund is aiming to achieve long-term capital growth and current income by investing predominately (at least 80%) in global infrastructure-related companies. The Sub-fund promotes environmental, social and governance (ESG) characteristics (within the meaning of Article 8 of Regulation (EU) 2019/2088) through a combination of different portfolio management techniques. Details are available in the prospectus and the ESG website disclosure of the fund. The Investment Manager will use its discretion to significantly deviate from the weighting of certain components of the benchmark and to significantly invest in companies or sectors not included in the benchmark in order to take advantage of specific investment opportunities. It is thus expected that the performance of the Sub-fund will significantly deviate from the benchmark. The Sub-Fund will invest at least 40% of its net assets in securities of companies organized or located in at least three non-U.S. countries. Up to 20% of the Sub-fund's net assets may be invested in bank deposits at sight, such as cash deposits. However, in exceptionally unfavourable market conditions near cash assets, as well as convertible bonds and bonds with warrants may, on a temporary basis, go up to 100%. The Sub-fund is not limited to a certain currency, sector or geographical scope, although investments in emerging markets will not exceed 20% of its net assets. In order to reach its objective, the Sub-fund can use derivative instruments for investment and hedging purposes and efficient portfolio management. In addition, the Sub-fund might also invest in structured products (up to 10%). The Sub-fund uses derivatives to reduce the impact of changes in currency exchange rates on the performance for this Share Class. The investor can buy or sell shares on a daily basis (Luxembourg bank business days). This Share Class makes regular distributions. The Sub-fund shall bear the costs of standard brokerage and bank charges incurred by the Sub-fund through securities transactions in relation to the portfolio.

Intended Retail Investor: This Product is intended for professional and institutional investors, with an ability to bear an average investment loss, and a long-term investment horizon.

What are the risks and what could I get in return?

(A) Summary Risk Indicator

The risk indicator assumes you keep the Product for 7 years. The actual risk can vary significantly if you redeem at an early stage and you may get back less.

The Summary Risk Indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets. We have classified this Product as 4 out of 7, which is a medium risk class and poor market conditions could impact our capacity to pay you. **Be aware of currency risk** if your reference currency differs from the currency of the Product. You may receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. Investors shall note that the Product may be exposed to further risks such as operational, counterparty, political, sustainability and legal risks that are not included in the Summary Risk Indicator. This Product does not include any protection from future market performance so you could lose some or all of your investment.

(B) Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. **What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Product / a suitable benchmark over the last 12 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period:		7 years	
Example Investment:		USD 10,000	
Scenarios		If you exit after 1 year	If you exit after 7 years (Recommended holding period)
Stress scenario	What you might get back after costs	USD 1,448	USD 1,152
	Average return each year	-85.5%	-26.6%
This type of scenario occurred for an investment MSCI World Infrastructure (NR) between 04/2022-07/2024.			
Unfavourable scenario	What you might get back after costs	USD 8,937	USD 9,912
	Average return each year	-10.6%	-0.1%
This type of scenario occurred for an investment MSCI World Infrastructure (NR) between 07/2014-07/2021.			
Moderate scenario	What you might get back after costs	USD 10,396	USD 13,443
	Average return each year	4.0%	4.3%
This type of scenario occurred for an investment MSCI World Infrastructure (NR) between 12/2012-12/2019.			
Favourable scenario	What you might get back after costs	USD 12,610	USD 16,701
	Average return each year	26.1%	7.6%

What happens if MultiConcept Fund Management S.A. is unable to pay out?

The investor of this Product will not face financial loss due to the default of MultiConcept Fund Management S.A., as the Sub-fund is considered to be a separate entity with segregated assets.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- USD 10,000 is invested

	If you exit after 1 year	If you exit after 7 years (Recommended holding period)
Total costs	USD 32	USD 225
Annual cost impact (*)	0.3%	0.3%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.6% before costs and 4.3% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	0.0% of the value of your investment when entering.	USD 0
Exit costs	0.0% of the value of your investment before it is paid out to you.	USD 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.2% of the value of your investment per year.	USD 20
Transaction costs	0.1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 12
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	n/a

How long should I hold it and can I take money out early?

Recommended holding period: 7 years

The recommended holding period is calculated based on the Summary Risk Indicator presented above. According to the investment objective as described above, the Product is designed for long-term investment. The Product is an open-ended Product. The investor can sell their investment on a daily (on business days) basis. No redemption fees or penalties will be charged at the level of the Product.

How can I complain?

Any complaint regarding the person advising on, or selling the Product can be submitted directly to that person or bank. Any complaint regarding the Product or this document can be submitted in writing under the following address: MultiConcept Fund Management S.A., 5, rue Jean Monnet, L-2180 Luxembourg. Investors shall note that a complaint can be also addressed by e-mail to list.lux-multiconcept@credit-suisse.com or visit website: www.credit-suisse.com/microsites/multiconcept/en.html.
